The senate chamber itself was also filled and from the first the senator received most careful attention.

## 14th Amendment Can't Be Invoked in Lynching

By Associated Press.  
Washington, Jan. 11.—The case of the United States versus Robert Powell, involving the question of whether the fourteenth amendment can be invoked in a United States court to protect negroes against lynching, was decided by the supreme court of the United States today in favor of Powell on a writ of error bringing the case from United States circuit court for the Northern district of Alabama. Powell was under indictment,

charged with assisting a mob in hanging a man named Horace Maples at Huntsville, the specific charge being that, as a member of the lynching party, Powell deprived Maples of the right to trial by due process of law. The circuit court held the fourteenth amendment is not applicable to the case, and declared it could not be invoked unless the injustice complained of was inflicted by the state, or its authorities. The supreme court affirmed the lower tribunal.

## HOT FIGHT IN THE TENNESSEE LEGISLATURE

**Charged That Liquor Advocates Are Even Sending Fallen Women to Nashville to Influence Legislators.**

By Associated Press.  
Nashville, Jan. 11.—Developments in the Tennessee's state-wide prohibition fight came thick and fast today. A special message from Governor Patterson declared that state-wide prohibition is fundamentally and profoundly wrong as a governmental policy, and does not accomplish the result hoped for. He said the question should be left to individuals. The climax was reached in the committee hearing tonight in hall house representatives. The session was a long and exciting one, but final action is pretty generally expected tomorrow.

In the senate tomorrow, if the members vote as they did, in organizing that body, the measure's passage is assured. In the house enough members have committed themselves to assure its passage there. The governor, it is conceded, will veto the measure, when the fight will be on again with renewed vigor. Only a majority is required to pass the measure over the governor's veto.

Dr. B. F. Haynes declared he knew women, beautiful fallen women, who have been sent here to influence the legislators, and these women are seeking them in their apartments, and using every means at their command to turn the legislative tide against state-wide prohibition. He also declared that he was freely offered to those willing to change their views.

## Preacher Suicides After Confessing to Murder

By Associated Press.  
Carthage, Ill., Jan. 11.—Rev. John H. Carmichael, pastor of three Methodist churches, in and near Adair, Mich., the confessed slayer of Gideon Browning, a neighbor, whom he slew with a hatchet and cremated last Tuesday night in the Battle Run church, suicided in a boarding house today by cutting his throat with a pocket knife.

The preacher left a letter to the sheriff of Adair, Mich., giving the details of the murder, the dismembering and incineration of the body and ascribing the act to self defense and moral cowardice because of the hypnotic influences of Browning, an illiterate carpenter, held over him.

While the confession is rather extensive on some points, it leaves many questions in regard to the tragedy unsolved. Some part of the let-

ter tend to create an impression that the confession is really the production of an unsound mind.

## SWEEPING REFORMS WANTED FOR DISTRICT OF COLUMBIA

By Associated Press.  
Washington, Jan. 11.—Sweeping reforms of more or less national interest affecting the criminal classes in the District of Columbia are recommended in a report transmitted to congress by President Roosevelt today by the commission appointed under the act of congress of May 16 last to investigate the subject. Justice Stafford, of the supreme court of the District of Columbia is chairman of the commission which is unsparing in its condemnation of the conditions in the federal jail, the District

workhouse and other penal and correctional institutions in this city. The overcrowding of the jail and the workhouse, the commission declares to be a stench in the nostrils of everyone acquainted with the situation. In one institution they state that five hundred out of six hundred inmates are maintained in absolute idleness and with no opportunity to exercise, and it is stated that in most cases two or three are crowded in a single cell not large enough for one, and the meals are passed through the bars in a tin can.
